Tech Know Systems, Inc.

Tech Know Systems, Inc. Announces
JetPCL version 9.6 available for use with **DynamicPaper**

JetPCL Integrated into DynamicPaper from Dynamic Concepts!

JetPCL is now available for integrated use with Dynamic Concepts' DynamicPaper product. Using JetPCL with the DynamicPaper product allows PCL print files to be easily emailed as PDF attachments. PCL files are Hewlett-Packard LaserJet print files. Using JetPCL these print files can be converted into Adobe Acrobat PDF image files. All of this happens easily when you purchase **JetPCL for DynamicPaper** because Dynamic Concepts has integrated JetPCL into their new DynamicPaper product. Purchasing a run time license for JetPCL will enable the integrated JetPCL module.

Purchasing a 'JetPCL for DynamicPaper' Runtime License

JetPCL for DynamicPaper runtime licenses are available directly from Tech Know Systems. The pricing for each DynamicPaper server installation is based on the number of concurrent users. The number of concurrent JetPCL users is not the same as the number of DynamicPaper users, but rather it is the number of users that can use JetPCL at the same time. In the event that the customer's JetPCL processing needs grow, they can easily switch to a higher concurrent user category. Pricing categories based on concurrent users are as follows:

1	Concurrent User	$1000 annually
3	Concurrent Users	$1250 annually
9	Concurrent Users	$1850 annually
25	Concurrent Users	$2600 annually
50	Concurrent Users	$3800 annually

Platforms supported are: Windows, Linux x86, AIX, HP/UX, SUN Solaris, SCO and Unixware.

A **JetPCL for DynamicPaper** runtime license is a subscription license that requires an annual license fee. The License fee covers use of the software, technical support and JetPCL maintenance releases as needed. Perpetual licenses that do not include support are not available. The end customer will need to sign a JetPCL license agreement to purchase a license. Payment is due within 30 days of purchase.

Installing a 'JetPCL for DynamicPaper' Runtime License

Once the DynamicPaper developer has your application using DynamicPaper and the JetPCL Demonstration software as needed, you are ready for a **JetPCL for DynamicPaper** runtime licenses to remove the JetPCL Demonstration watermarks and page limitations. Installation is easily accomplished by either an in-house IT person familiar with the Unix or Windows command prompt or by a qualified Dynamic Concepts developer or consultant. Installation involves these steps:
- receiving a JetPCL activation key from Tech Know Systems (via email)
- receiving a JetPCL replacement executable (via email)

Easy to follow, step by step, instructions will explain how to update the JetPCL executable and install the JetPCL activation key to enable the already integrated JetPCL software.
